All around you suffering and pain

Oh the river she knows why

D

Let the river wash you down

Bm A G

Beneath the surface with a rushing sound

G A Bm

Like a freight train passing through a town

G A D

Let the river wash you down

D

Let the river take away

Bm

All the words that you and I could never say

G

Bm

In the silence Darling let us pray

G

Let the river take it all away

Oh the river knows your name

From the Brazos to the Wabash To the Seine

No two journeys are ever quite the same
