

I Read It In the Rolling Stone

D5

Well, I been shaking down the news stand,
for a word to ease my soul
Pleading with the news man,
I need the read to rock my roll

They got a rack a shack of papers
They got a rack of magazines
They don't talk me around the sound, Jack
or tell me how to wear my jeans

I know the web that's got the ebb
I don't surf to go to flow
I got to know the bass and treble
Know what the rock stars know

You know sometimes I've just got to ask myself;

“What would my man Robert Plant do?”

You know they teach me meditation
Teach me how to please my girl
Tell me when to change the station
How to save this troubled world

Ain't gonna set my sights on YouTube
Dat won't fill my need
I got no cable on the boobtube
I'll be the last guy who can read.
